assisting michigan's public safety community

Dear Chairman Cole and Members of the House Transportation Committee.

Thank you for the opportunity to address this body and relay the perspective of the Thin Blue Line of Michigan. My name is Scott Reinacher. I am the president of the Thin Blue Line of Michigan. I served more than 25 years in the Michigan State Police serving at the Erie, Detroit, Brighton and Lansing Posts.

Prior to my retirement from the Michigan State Police, I served as the President and Vice President of the Michigan States Police Troopers Association. Additionally, I served as the Chairman of the National Troopers Coalition which represent more than 40,000 State Troopers across the nation.

I am one of the founding Members of the Thin Blue Line of Michigan. Thin Blue Line of Michigan was formed in January, 1999 as a charitable nonprofit organization to assist the families' of Michigan's Police Officers in their time of need. Thin Blue Line is entering its 18th year of providing its Mission statement of "Assisting Michigan's Public Safety Officers and their families in their time of need".

Thin Blue Line's Mission has grown since its inception to be all inclusive of assisting the families of injured or deceased Michigan Public Safety's Officers. Thin Blue Line aids families with financial, emotional and physical issues through benefit recovery and medical needs that arise upon the occasion of an Officer's injury or death.

The numbers of Public Safety Personnel in Michigan which includes law enforcement, fire-fighters, corrections dispatchers, EMS, EMT, Court Officers, Administrators, Support Staff, Reserve Police and fire fighters and Volunteers are more than 100,000 persons.

I have enclosed several summary reports for your review from the Federal Bureau of Investigation, Bureau of Labor Statistics and the National Law Enforcement Officers Memorial that provide a snap shot of the graphic impact on the Public Safety occupation through death and injury. Many of these Public Safety Officers are catastrophically injured and will never return to work.

In many cases the Thin Blue Line of Michigan provides financial assistance to Officers and their families from the moment they are injured. Public Safety compensation and benefits in Michigan are like fingerprints, every agency is different, many times leaving the Officer and their family struggling.

Your assistance in the passage of Senate Bill #367 is appreciated. When it passes it will help provide the essential funds to help Michigan's Public Safety Officers and their families in their times of need. The Thin Blue line of Michigan will utilize the funds from this fund raising plate to continue its mission. Your prompt action, support and assistance in passing Senate Bill #367 will not be overlooked or forgotten by Michigan's Public Safety Community.

Thank you for your time, and for allowing me to present this critical information to your committee.

I am available to answer question if there are any?

Sincerely,

Scott Reinacher
President
